Dawood Waheed

FULL STACK DEVELOPER

Introducing myself as aspiring developer passionate to build the efficient and innovative applications. Transitioning into the tech industry with problem solving skills, adaptability and commitment to continuous learning

EXPERIENCE

AL SHAMS TECHNOLOGY PVT LTD.

March 2024 - Continue

As a **Full Stack Developer** at *Al Shams Technology*, I design, develop, and maintain end-to-end web applications using modern JavaScript frameworks and backend technologies. My role involves building scalable APIs, managing databases, and implementing secure authentication and authorization systems. I work closely with cross-functional teams to translate business requirements into efficient technical solutions while ensuring performance, security, and user experience standards. I also handle version control, deployment, and integration of real-time communication and notification systems, contributing to the overall architecture and reliability of each project.

HH TECH HUB PVT LTD.

Oct 2025- Continue

Working as a **Full Stack Developer and Team Lead** at **HH TECH HUB**, handling both **mobile and web applications** from development to deployment. Led a team of developers, managed project workflows, and ensured timely delivery of high-quality solutions. Integrated **Firebase, WebSockets, and REST APIs** for real-time functionality. Working on multiple tech stacks, focusing on scalability and smooth user experience. Collaborated with clients to align technical outcomes with business objectives.
